DRYS SEEK TO WIN  
SOLDIERS' SUPPORT  
TO THEIR CAUSEOpen Quarters for Them  
Where Missionary Work  
Can Be Carried On.For the purpose of influencing the  
thoughts and actions of returning  
soldiers, sailors and marines toward  
Nation-wide Prohibition, the Anti-Saloon League has opened a branch  
for them on the same floor with the  
organization's headquarters at No.  
506 Broadway.Lieut. George S. Decker, who has  
been placed in charge, will be assisted  
by other workers in the cause. He  
conferred yesterday regarding the  
move with Dr. E. C. Dinwiddie, Lec-  
slative Agent of the league in  
Washington, who came to New York  
for the purpose.According to an announcement rep-  
resentatives of the league now in  
France as Red Cross and Y. M. C. A.  
workers are polling soldiers there as  
to their sentiments and making sug-  
gestions to win them over. Dr. James  
Cannon and H. B. Carré, high offi-  
cials of the anti-drink organization,  
also are in France on an interna-  
tional temperance mission.  
As the fighting men back from thebattlefields set foot in New York,  
they will be invited to "dry" head-  
quarters, where they will be handed  
a lot of pamphlets in the dry cause.  
One of these reads:"The present National Amendment  
for National Prohibition, now a law,  
has been a culmination of organized ef-  
fort for over half a century. This  
organization increased in intensity  
and widened in scope from year to  
year and decade to decade. It is the  
greatest victory for reform since the  
Declaration of Independence."The liquor men say: 'Prohibition  
has been put over the men in service  
and they have been on duty over-  
seas.'""Our answer:  
"1. The members of the Congress  
which submitted the National Pro-  
hibition Amendment to the States for  
ratification were elected, largely on  
this very measure, long before a  
state of war existed between the  
United States and Germany.  
"2. The National Prohibition Am-  
endment was submitted by Congress  
December 18, 1917, when only a few  
scattered regular units had been  
sent overseas.  
"3. Before the United States en-  
tered the war twenty-five States had  
prohibited and legislators in enough  
others to carry the amendment  
through, had been elected to office.  
"4. Before war was declared in  
April, 1917, there were 2,514,671 square  
miles, or 35.8 per cent. of the total  
area of the United States, under Pro-  
hibition laws. There were 55,556,698  
people, or 40.7 per cent. of the popula-  
tion of the United States, living in  
Prohibition territory and voting for  
Prohibition.  
"5. Before war was declared the  
area under license was 32,812 square  
miles, or only 12.2 per cent. of the  
area of the United States. There  
were 36,015, 568 people, or 39.3 per cent.  
of the population living in wet ter-  
ritory.  
"6. In other words, there were 60  
per cent. more people living in dry  
territory than in license territory be-  
fore a state of war existed between  
the United States and Germany.  
"7. Fifty-five million people stood  
arrayed against 36,000,000 in the di-  
rect issue of Prohibition before the  
war. This illustrates the great prin-  
ciples of democracy for which our  
men crossed the seas to battle.  
"8. You soldiers and sailors have  
taken your oath to defend the Con-  
stitution of the United States.  
"9. National Prohibition has been  
made a part of the Constitution of the  
United States and is a law.  
"10. If the liquor dealers ask you to  
oppose the National Prohibition  
Amendment they ask you to violate  
your oath as soldiers and sailors of  
your country.  
"The liquor men say that Prohibition  
will restrict 'personal liberty.'  
"When they advance this statement  
they know they are telling a false-  
hood.  
"In every test case which the liquor  
dealers have ever brought before the  
Supreme Court or which has ever  
come before the highest tribunal of  
this country the use of liquor has  
been ruled not a personal liberty."TRUCK CRUSHED BY CAR.  
Driver Thrown 20 Feet as Vehicle  
Is Pinned Against "L" Pillar.  
A motor delivery truck and a street  
car were running side by side up Third  
Avenue this morning when at 21st  
Street the driver of the truck, Hyman  
Abrahamowitz, No. 72 Columbia Street,  
tried to cut in ahead of the car.  
He miscalculated, and his truck was  
crushed between the street car and  
No. 12 pillar. He was tossed twenty  
feet but not injured. John Sedacca,  
No. 133 Orchard Street, who was riding  
on the rear of the truck, was also  
thrown but escaped serious injury.  
The street car was derailed and sev-  
eral passengers scattered with broken  
glass. Traffic was delayed for twenty  
minutes on the car tracks.Appeal to Farmers to Buy Liberty  
Bonds.  
WASHINGTON, April 10.—An appeal  
to farmers to buy Victory Liberty  
notes and to assist in every way pos-  
sible in the loan campaign which starts  
April 21, was issued today by heads of  
thirty-six leading agricultural organiza-  
tions, State and National, through the  
Loan Publicity Bureau.MEXICAN BANDITS'  
TRAIN ROBBERIES  
DAILY AFFAIRS NOWGuard of Fifty Wiped Out in  
One Escapade—Ameri-  
can Injured.WASHINGTON, April 10.—A pas-  
senger train was derailed by Mexi-  
can bandits sixty-five miles from  
Tampico last Friday, and among the  
passengers injured was one Ameri-  
can, J. P. Mennet. The State De-  
partment has wired Tampico for fur-  
ther particulars. Monterey news-  
papers, despatches say, reported that  
the train was derailed by rebels, that  
a number of persons on board were  
wounded during the attack and some  
train equipment burned. A Federal  
guard is reported to have been killed.  
Mexican newspapers reaching  
Washington today report a revival  
of banditry in the State of Vera Cruz  
immediately south of Tampico and  
record six other serious attacks on  
trains since the middle of March.  
This is largely the territory whereFelix Diaz, recently reinforced by  
Gen. Aureliano Blanquet, is reported  
to be operating.  
On March 19, a passenger train be-  
tween Merida and Acapulco, Mexi-  
co, where the rebels have been ac-  
tive for months, was held up. The  
armed guard attacked and the pas-  
sengers robbed of all valuables and  
their clothing. The guard of Gov-  
ernment troops fled to the hills.  
Two days later a freight train on  
the Isthmian line between Mexi-  
co City and Vera Cruz was dynamite-  
d by rebels.  
On the same day Zapatistas on the  
same line between Mexico City and  
Puebla derailed a train and robbed  
the passengers. The Government  
troops were overpowered, three were  
killed and the others fled to the hills.  
The engineer, mail clerk and one  
passenger were wounded.  
A mixed train on the Vera Cruz  
Isthmian line between Vera Cruz and  
Terra Blanca was dynamited March  
22, the express car robbed and four  
or five cars of freight burned. Seven  
passengers were wounded and a pay-  
master carrying 10,000 pesos was  
robbed. Thirteen Government sol-  
diers guarding the train were killed  
and the reb. a carried away the pay-  
master and several passengers, and  
left them for ransom.  
The most serious train hold-up re-  
ported was on March 23, when an en-  
tire train guard of 50 men was wiped  
out by rebels under the Polanco  
chieftain Gabay, who recently looted  
the town of Coatepec and burned the  
hacienda of Santa Vito. This attack  
was made at a point less than ten  
miles from Vera Cruz on a train be-  
tween that city and Alvarado.  
A freight train for Puebla and  
Jalapa was dynamited April 1, and  
a large amount of freight stolen or de-  
stroyed. The rebels numbered more  
than 500 mounted men.Congressman's Body Brought Here  
The steamer Eastern Light arrived  
today from Rotterdam carrying  
the body of Representative W. P. Bor-  
land of Kansas City, Mo., who died inFrance from pneumonia while visit-  
ing the American Army of Occupation. At  
surrendering the body was transferred to  
a naval boat and taken ashore for ship-  
ment to Kansas City.

Men's Suits and Topcoats  
Hand-Tailored and ReadyNothing worth while is done in  
a hurry. Perfection is a slow  
process. Hand-tailoring takes  
time. And time means money.  
But in this case it means *our*  
money not yours. We are work-  
ing to give you hand-tailored  
clothes at the price of those that  
are not. And even the fabrics  
are finer and choicer in conse-  
quence, for men who work byhand naturally look for the finest  
materials in which to express  
themselves, just as artists do.  
They embrace both imported  
and domestic cheviots, worsteds,  
and flannels. But more important  
than their technical terminology  
is the soft-surface character of the  
weaves they come in. Woolens  
and workmanship alike reveal  
the spirit of genuine idealism.
